Akshara Moudgalya

SENIOR UX DESIGNER

San Francisco, CA| moudgalya.akshara@gmail.com
LinkedIn: linkedin.com/in/akshara-moudgalya-1ba449b6 | **Portfolio:** www.aksharamoudgalya.com

SUMMARY

Senior UX designer and researcher with 8+ years leading research-driven design & strategy for global B2B/B2C platforms. Owns the UX approach end-to-end – from **activity planning, effort estimation and timeline alignment** to translating ambiguous problems into **user flows, prototypes, design systems, and platform-first solutions** that measurably **improve engagement, conversion, and adoption through iterative design**. Experience partnering with product managers, project managers, designers, developers, and cross-functional stakeholders in fast-paced environments.

CORE EXPERTISE

Design & Prototyping – Figma, UXPin, Adobe XD, AI augmented workflows, low- to mid-fidelity prototyping, design systems
Research methods – User and stakeholder interviews, focus groups, card sorting, landscape and competitive reviews, Optimal Workshop, UXtweak
Experimentation & Analysis – A/B testing, Google Analytics, data analysis, conversion rate optimization, heuristic evaluation, usability testing, tree testing, eye tracking
Platforms – Shopify, Adobe AEM, responsive websites, post-login interfaces

PROFESSIONAL EXPERIENCE

UX Consultant | Freelance, USA *(Jan 2025 – Present)*

- Led UX strategy for a Singapore-based events booking startup – ran discovery research, defined core user flows, and advised on design decisions to drive user engagement and adoption of the platform
- Directed a full rebrand and website redesign for a yoga school in India – revamped site UX and shaped content strategy to boost visibility, engagement, and brand cohesion

Convertium Pte. Ltd. | Singapore, Remote *(Jul 2017 – Present)*

UX Consultant [Remote] | *Sep 2025 – Present*

- Mentored 2 junior UX designers over the past year – provided hands-on feedback and coaching to support their growth into independent contributors
- Pitched and won a redesign engagement with the Singapore Red Cross – mentored the designer initially leading the project, then took over full ownership when they transitioned to a new role, balancing donor, volunteer, and trainee stakeholder needs to increase monetary donations, blood donation sign-ups, and training course registrations
- Won and led the end-to-end website redesign of fintech startup audax – restructured the information architecture and created a content hierarchy that simplified complex product discovery while clarifying engagement cycles for prospective clients

Senior UX Designer | *Jan 2022 – Jan 2024*

- Mentored junior designers and interns across UX and UI disciplines – provided design feedback and guidance to support their career growth
- Built and rolled out a company-wide Figma design system – standardized components and interaction patterns across internal product teams, improving design consistency and delivery efficiency
- Led end-to-end redesign of the TOUCH website – restructured content, refined navigation, and launched a post-login volunteering portal that is estimated to have increased time spent, pages visited, and click-through-rates
- Redesigned internal tools for Avient's manufacturing and sales teams – simplified workflows and improved usability across desktop and manufacturing-line TV interfaces
- Defined Avient's UX team SOPs – standardized planning, effort estimation, and documentation processes to enable consistent delivery and cross-functional alignment
- Optimized EDB's website navigation and homepage using data analytics and tree-testing – reduced bounce rates by 14%

UX Designer | *Jun 2019 – Jan 2022*

- Owned UX strategy for Toyota's website revamp across 17 APAC markets – built a modular IA and localization-ready content framework on Adobe AEM

UX Designer (continued) | *Jun 2019 – Jan 2022*

- Designed and executed an A/B testing strategy for Lexus APAC – optimized user flows by editing directly on Adobe AEM, increasing test-drive bookings by 16% year-over-year
- Led global user research (Singapore & USA) for an EDB Singapore B2B portal – identified key pain points and defined feature requirements to help businesses discover and engage setup partners
- Led 0-to-1 website development for Singapore Institute of Technology – ran research plans and focus groups, and applied atomic design to market their unique pedagogical framework
- Designed a scalable Shopify UX framework for Make Up For Ever APAC's eCommerce rollout – built interaction patterns and reusable components to support regional localization

Junior UX Designer | *Jul 2017 – May 2019*

- Led full product redesign of the Lexus Asia Pacific portal (2018 – 2020) – mapped user flows, prototyped UI, and facilitated feature prioritization with the PM team, increasing test-drive bookings by 31%.
- Designed and ran usability tests in Singapore and India to map the automotive customer journey
- Increased room bookings at Marina Bay Sands by 18% – designed a multi-room booking feature from low- to high-fidelity prototypes using the existing UI design system
- Led end-to-end UX design to transform NTUC Income's claims process from offline to fully digital

AWARDS

Digital Service Awards 2025, Singapore Government – Honorable mentions for Best Usability (Government) and Most User-Centric Website, EDB Singapore

Silver w3 award 2020 – Lexus Asia Pacific distributor websites

Silver w3 award 2018 – Lexus Asia Pacific marketing campaign website for LS model launch

CERTIFICATIONS

Nielsen Norman Group UX Certificate – Design Tradeoffs and UX Decision-Making; Lean UX and Agile; Omnichannel Journeys and Customer Experience; Service Blueprinting

Google UX Design – Coursera

Adobe Design Fundamentals with AI – Coursera

Adobe Generative AI Content Creation – Coursera

EDUCATION

MSc. Smart Product Design | Nanyang Technological University, Singapore *(Aug 2016 – May 2017)*

BEng. Mechanical Engineering | K.J. Somaiya College of Engineering, Mumbai, India *(Aug 2012 – May 2016)*
